

INFORMATION FOR PATIENT VISITORS

With the opening up of the country and the national changes we are delighted to be able to make some changes to visiting on our Inpatient Unit.

- We can now offer visiting each day from 14.00
- We no longer need to restrict the number of visitors for each patient.
- Please spread visiting out over the afternoon/evening to avoid “gatherings” in the patient’s room.
- Please continue to do a lateral flow test before each visit and upload your result.
- We will continue to supply a mask for you to wear whilst you are visiting. Please continue to wear this to protect your loved ones.
- We still remaining cautious with children and young people of school age. Please discuss with the team.
- Please do speak to us if you need to visit in the morning - we are happy to be flexible.

Open visiting continues to be available for families of patients living the last days of their lives and will be discussed and agreed on an individual needs basis.

Please remain cautious and do not visit if you feel unwell.

Thank you for your ongoing support to keep our patients safe.
